Let me be honest with you. I think that what the Federal government engaged in during the Clinton administration was political grandstanding, perhaps even some sort of vendetta, but certainly not in the national interest.

I also believe that Microsoft engages in predatory marketing and sales practices. You dominate the computer industry because you are good, but also because you have and continue to throw your weight around. I don't like it any more than I like our huge Federal beurocracy and it's results.

I agree that it is time to move on. Stop trying to put your competition out of business. And, I strongly suggest that the government - DOJ especially - worry about national security, immigration, and misinterpretation of our Constitution.

Has Your Opinion Been Counted?

Earlier this month, you took part in a letter-writing campaign to express your opinion of the antitrust settlement between the Department of Justice and Microsoft. We would like to thank you for your efforts and make sure that when we assisted you in organizing your thoughts on paper, you were completely satisfied that the draft letter fully expressed your own views in the matter. If you would like any changes, we would be happy to make them now.

The public comment period on this settlement ends on January 28. The provisions of the agreement are tough, reasonable, fair to all parties involved, and go beyond the findings of the Court of Appeals ruling; however, the settlement is not guaranteed until after the review ends and the District Court determines whether the terms are indeed in the public interest.

If you would like your opinion to count, now is the time to send in your letter! Please send your comments directly to the Department of Justice via email or fax no later than January 28. If you have already done so, or will do so in the near future, please be sure to send a signed copy to the FIN Mobilization Office, OR SIMPLY REPLY TO THIS EMAIL WITH A SHORT NOTE INDICATING THAT YOU HAVE SENT YOUR LETTER.

Please take action today, to ensure your voice is heard.
